PROFESSIONAL SUMMARY

Detail-oriented data analyst with hands-on experience building end-to-end data pipelines, integrating multiple APIs and public data sources, cleaning and validating datasets, and delivering interactive dashboards. Proficient in Python, SQL, PostgreSQL, MySQL, REST APIs, Pandas, Tableau, Power BI, and Supabase, with experience handling scheduling, retries, schema alignment, missing values, deduplication, and large datasets. Strong fit for data engineering and analytics workloads supporting modern AI/ML and business intelligence use cases.

RELEVANT EXPERIENCE

Patent Co-Inventor | Lovely Professional University, Phagwara 2025 – 2026

- Co-inventor on three Indian patent applications; contributed to invention disclosure drafting, prior-art review, specification inputs, and coordination with the university IP cell across filing and publication stages
- Tracked application status, publication dates, and office correspondence through the IP India portal, maintaining structured records of filing numbers, dates, and prosecution stages

KEY PROJECTS

Indian Patent Database & Filing-Trends Dashboard | Python | BeautifulSoup | Selenium | Pandas | PostgreSQL | Power BI 2026

- Built an automated data pipeline to extract published Indian patent application records from web sources and compile them into a normalised PostgreSQL schema
- Implemented duplicate detection, date-format normalisation, applicant-name standardisation, and null-field flagging for data quality control
- Delivered a Power BI dashboard covering filing trends, top applicants, technology-domain distribution, and patent-office-wise split, with SQL views powering visuals
- Exported client-ready Excel summary sheets with PivotTables, conditional formatting, and slicer-driven filters

Patent Landscape Report Generator | Python | REST APIs | Pandas | openpyxl | Tableau 2026

- Automated a keyword-and-classification-driven workflow that pulls records for a technology domain through public patent APIs, deduplicates across sources, and produces a formatted multi-sheet Excel workbook
- Generated Tableau views for assignee share, jurisdiction spread, and filing velocity and documented a reusable run-book for repeatable extraction

Multi-Source Market Data Pipeline & Dashboard | Python | REST APIs | SQL | Supabase Jan – Apr 2025

- Integrated four independent public data sources (EIA, FRED, yfinance, NewsAPI) into a single validated dataset, handling scheduling, retries, schema alignment, and missing-value treatment
- Built a nine-page interactive dashboard with drill-downs, comparison views, and exportable summary tables; documented the full pipeline for reproducibility

TECHNICAL SKILLS

Programming	Python, SQL
Data Engineering	REST API integration, web scraping, HTML/XML/JSON parsing, CSV/bulk-file ingestion, pagination & rate-limit handling, scheduling, retries, schema alignment, data validation, deduplication
Databases	PostgreSQL, MySQL, Supabase — joins, aggregations, window functions, CTEs, indexing, schema design
Data Analysis	Pandas, NumPy, EDA, large-dataset handling, statistical summarisation, trend analysis
BI & Visualization	Power BI (data modelling, DAX basics, interactive dashboards), Tableau, Excel, Matplotlib/Seaborn
Cloud / Tools	Supabase, Git version control, Jupyter, VS Code
AI / IP Research	Patent data mining, structured technical documentation, IPC/CPC classification, InPASS, Espacenet, Google Patents, WIPO Patentscope

PATENTS & PUBLICATIONS

Smart-ID Based Campus Presence & Safety Management System — App No. 202511104180 | Published 2025
A Smart Therapeutic Mattress System — App No. 202511052262 | Filed 2025
A Smart Urinal System for Early Detection of Chronic Kidney Disease — App No. 202611071811 | Filed 2026
Empirical-Study-Based Analysis of True-Pass System — IJNRD | Vol. 11, Issue 4 | Apr 2026 | Impact Factor 8.76 | Paper ID: IJNRD2604711

CERTIFICATIONS

Google Advanced Data Analytics — Coursera, 2025	SQL for Data Science — Coursera, 2024
Data Analytics with Python — NPTEL, 2025	The Data Visualization Course — Udemy, 2025

EDUCATION

BCA | Lovely Professional University, Phagwara, Punjab — CGPA: 8.52 2023 – 2026
